

Smart Parking for your company

A revolution in corporate
parking management

Optimize the parking
space by multi sharing
spots

Improve organization of
traffic at a parking lot

Upgrade to the
BREEAM certification
requirements

Streamline parking
space management

digitalparking.city/enterprise

Improving parking lot traffic organization

- Camera-based parking infrastructure.
- Contactless entry & exit with license plate recognition.
- Clear number of spaces for users and managers.
- Parking spot reservation before arriving at the office.

Upgrading to the BREEAM certification requirements

- Reducing carbon footprint, lines and exhaust fumes.
- Raising the quality of the building to the BREEAM standards.
- Improving the standards of service for employees, their comfort and quality of their work tools.
- Boosting the market competitiveness of the building.
- Creating an inclusive environment by caring for people with disabilities – a parking lot without barriers thanks to contactless solutions.

SMART PARKING SYSTEM FOR YOUR COMPANY

Multi sharing & optimizing the use of space

- Sharing spaces between lessees of one parking lot.
- Designating the user groups with guaranteed access to a parking lot. In their absence, their spaces can be used by other users.
- Optimizing employee flow in a limited pool of parking spaces.
- Presenting full traffic transparency regarding parking spaces.

Managing parking in one intuitive system

- Deep insight of the real-time occupancy rate.
- Live parking status of a specific driver.
- A map-reflected view of the spots assigned to users.
- Detailed statistics on parking operations that can be narrowed down to a specific time frame.

Discover the cutting edge parking solution multi sharing spots

multi sharing spots + barrier-free space = sustainable & modern parking lot

The usual setup...

John Smith

✓ Assigned parking spot: 123

Mike Miller

✗ No spot assigned

...enhanced by multi sharing

John is OOO for 2 weeks...

John, thanks by declaring his absence, is making his parking spot available for his coworkers.

... so Mike can use his parking spot

Mike saved a lot of time as he didn't have to look for a parking spot and he entered the parking lot seamlessly. He is more satisfied as an employee.

Multi sharing benefits all

DRIVERS

The intuitive app is convenient to use on a daily basis and offers employees the possibility to book a space before arriving at work or share spots with other users during their absence.

OWNER

Access to the management panel guarantees the owner optimal use of the parking space, as well as insight into clear yet extensive reports.

LESSEES

Each lessee can manage their parking resources in real time based on accurate data and optimize employee flow in a limited pool of parking spaces.

— Our mission

Whether you are a parking lot owner, a lessee or an employee who uses the facility on a daily basis, our solution brings real benefits. While creating it, our main objective was to improve the quality of office experience.

— What sets us apart?

We have been operating globally since 2015, with offices in Poland, UAE and Bahrain. We have our own software house and develop products based on clients' expectations. We offer comprehensive marketing services for ongoing projects, strengthening the client's brand. We provide a dedicated account manager for business clients and customer support for individual clients. We support smart cities and CSR concepts and create solutions for people with disabilities.
